July Quarterly Report (4/1/09-6/30/09)

Dear Ms. Kelly,

We are in receipt of your letter dated September 22, 2009 seeking additional information for our July 2009 Quarterly report.

1) Identification and employer/occupation information

All of the solicitations used in the Toomey for Senate campaign request the required information regarding full name, address and employer/occupation information. For your reference I have included a few samples of different types of invitations and letters that we have used this year. Additionally, if a contributor does not provide this information with his contribution, we send a follow up letter which points out the need for this information and asks once again that it be provided. A copy of the letter we use is included for your reference. There is also a device in our software program (Aristotle's ai360 program) where we can reference a person's contribution history, and look for employer/occupation information. We have used this as a reference only if we have not heard directly from our contributors and if the information is less than 2 years old. I believe this fulfills the requirements of "Best Efforts".

Your letter indicates that "Information Requested" is not considered acceptable. That is a default entry that we put in to our report so that you will know we have sent the necessary letters out to our contributors. We can have this removed if that is the preference of the FEC.

As for initials, in many cases, a contributor uses initials as his name. We check all documentation that comes in with a contribution, and if a full name is provided, we include that in our report.

An amended 2nd Quarter report has been filed with the Senate Office of Public Records.

Paid for and authorized by Toomey for Senate.
